

CENTRESTAGE DANCE - COVID PRECAUTIONS – April 2022

- * Here at CentreStage Dance we have multiple proper HVAC systems here at the studio to ensure proper air ventilation in addition to our almost 25-foot ceilings.
 - * Students/Staff will not enter the building if they are ill or showing ANY signs of illness, or if anyone in the household is ill. (Examples of symptoms: fever, chills, cough or worsening of chronic cough, breathing difficulties, shortness of breath, loss of sense of taste or smell, diarrhea, nausea or vomiting). Students/Staff may return a minimum of 24 hours after the last symptom.
 - * Students/Staff will follow all government mandates regarding monitoring, isolating, travel.
 - * For the remainder of this season, to maximize social distancing in the lobby and common areas, only registered students are to enter the building for classes. Parents and siblings are asked to please still wait in their cars, or outside versus the lobby.
 - * Drop off will be at the regular front entrance door (left door) at class time.
PLEASE DO NOT DROP OFF EARLY OR PICK UP LATE.
 - * Students should exit the building to be picked up immediately at the end of their class at the side door (right door) to maximize space in the hallway and lobby. We will have assistants here as well to walk out our littlest dancers. **PLEASE STILL BE HERE PROMPTLY BY THE END OF YOUR CHILD'S CLASS.**
 - * All students, staff, or anyone entering the studio must still use the hand sanitizer provided in the lobby immediately upon arrival.
 - * Although social distancing is no longer mandated, we are going to keep social distancing markers in the studios, lobby, and common areas as a guideline. There will still be no partner work or "touching" in recreational classes.
 - * Parents are asked to please have their children still use the washroom before leaving home for the studio to lessen the amount of washroom visits while here. Shoes/slides worn to the studio must be worn to the washroom.
 - * We ask that students still do their best to use social distancing while waiting in the building during short breaks in between classes, but we will not be policing this.
 - * MASKS – As of Friday, March 11th, masks are now no longer required. If you feel more comfortable with your child continuing to wear a mask while here in studio, that is of course fine.
 - * VACCINE PASSPORTS – As of April 8th, vaccine passports will no longer be needed for adults participating in classes, or entering theatres.
- Please know that here at CentreStage Dance we truly respect and value everyone's beliefs, and want to ensure that everyone is comfortable and feels safe with here at CentreStage Dance. No one will be made to feel singled out for wearing a mask in class, at photos, or while onstage.*
- * Students should only bring in with them **their shoes, water bottle, and a small bag**. Students should arrive in their dance attire for the day to minimize the number of dancers needing to use the change room. Dancers should be wearing slides, slippers, or a shoe that is easy to slip on and off when they arrive and for when it's time to go.
 - * All outdoor shoes worn to the studio must be removed prior to entering the dance studios.
Clean indoor shoes must be worn for Hip Hop!
 - * The washroom and common touch points are still being disinfected regularly!
 - * Our staff will still be cleaning the entire studios halfway through their teaching day, and at the end of the day with "Vital Oxide". Any barres, mats, bands, blocks, balls, props etc will be disinfected after each use.
 - * The lost and found will remain removed for the time being. Anything left at the studio at the end of each night will need to be thrown away. Please do not bring valuables that could get left behind! Please check your dancer's bag when they get to your vehicle to ensure that they have all of their belongings.
 - * Students should not bring cell phones into the class unless turned off in their bag prior to entering the building.
 - * We will keep our Zoom option for dancers that are feeling unwell until the end of this season. If a dancer cannot attend class due to illness, they may take class from home via Zoom. Please see instructions on the front page of your "Schedule With Zoom Codes" sent home in the fall.

We do not take the health and safety of your dancers, your families, and our staff lightly. We are 100% confident in our protocols and are doing everything we can to make sure CentreStage Dance is the safest place for your child to be. As government mandates change, this list may change or be altered.
